CANADIAN COUNCIL ON SOCIAL DEVELOPMENT

CONSEIL CANADIEN DE DÉVELOPPEMENT SOCIAL

THE CANADIAN COUNCIL ON SOCIAL DEVELOPMENT

Founded in 1920, the Canadian Council on Social Development (CCSD) is an independent, national, non-profit organization. Through research, policy analysis, community consultation and information sharing, the CCSD provides a forum for citizen participation in the formulation of progressive social policies.

The CCSD is the only national organization whose mandate and involvement embrace all aspects of social development and social policy. Since its beginning, the Council has been actively involved in the evaluation of existing programs, the identification of essential improvements, and the promotion of needed developments. It has been a positive, non-partisan advocate of social measures such as universal inoculation, pensions, unemployment assistance, worker's compensation, medicare, legal aid, daycare, and social and cooperative housing. The Council played an active role in the development of the Canada Assistance Plan and the Child Tax Credit, and has been a promoter of the Guaranteed Annual Income concept, self-help, voluntarism and community economic development.

The CCSD is not a "think tank". It **is** the only national social research, advocacy and policy organization with an open public membership. CCSD's analyses, opinions, research and information reflect not only highly professional technical work but also the active analysis and shared experience of its broadly representative membership.

The Council's diverse membership includes concerned individuals as well as representatives from business, labour, government, public and private service organizations, voluntary associations and institutions. An annual meeting of the membership reviews the year's program and financial activities. Council activities are directed by a voluntary, 39-member Board of Governors. Board members are formally elected at the annual meeting for terms of one, two and three years.

The CCSD is a major publisher in the field of social development. Publications include books, research reports, policy briefs and occasional papers, as well as four bilingual periodical publications: **Perception**, Canada's social development magazine; and three quarterly national newsletters — **Overview**, reviewing current developments in social policies and programs; **Initiative**, serving the self-help community; and **Vis-à-vis**, exploring family violence issues.

National headquarters of the Canadian Council on Social Development are located at 55 Parkdale Avenue, Ottawa, Ontario, K1Y 4G1. Tel: (613) 728-1865. CCSD also has a Quebec office, located at 515 Viger Ave., Suite 410, Montréal, H2L 2P1. Tel: (514) 288-1687. Membership information is provided on the inside back cover.

LE CONSEIL CANADIEN DE DÉVELOPPEMENT SOCIAL

Fondé en 1920, le CCDS est un organisme national indépendant à but non lucratif. Le Conseil encourage les citoyens à participer à l'élaboration de politiques sociales progressistes par des recherches indépendantes, des analyses de politiques, des consultations communautaires et la diffusion d'information.

Le CCDS est le seul organisme national dont le mandat et le secteur d'activités recouvrent tous les aspects du développement et de la politique à caractère social. Depuis ses débuts, le Conseil participe activement à l'évaluation des programmes actuels, à l'identification des améliorations nécessaires et à la promotion des solutions indispensables. Il s'est fait le porte-parole positif et non partisan de mesures sociales telles que les vaccins universels, les pensions, l'aide aux chômeurs, l'indemnisation des accidentés du travail, l'assurance-santé, l'aide juridique, les garderies, ainsi que le logement social et coopératif. Le Conseil a participé activement à l'élaboration du Régime d'assistance publique du Canada et du crédit d'impôt pour enfants; il a de plus appuyé les concepts du revenu annuel garanti, de l'entraide, du bénévolat et du développement des ressources communautaires.

Le CCDS est le seul organisme national de recherche, de politiques sociales et de représentation qui recrute ses membres parmi le public. L'information, les analyses, opinions et recherches produites par le Conseil découlent non seulement d'un travail technique hautement professionnel mais aussi de la réflexion et de l'expérience de membres qui représentent tous les intérêts promus par le Conseil.

Le CCDS compte des personnes intéressées et des représentants d'entreprises, de syndicats, de gouvernements, d'établissements, d'associations bénévoles, ainsi que d'organismes publics et privés offrant des services. Les membres du Conseil se réunissent chaque année afin d'examiner le programme et les activités financières du CCDS. Un bureau des gouverneurs composé de 39 membres bénévoles dirige les activités du Conseil. Les gouverneurs sont élus officiellement lors de la réunion annuelle pour un mandat d'un, deux ou trois ans.

Principal éditeur dans le secteur du développement social, le CCDS publie notamment des livres, des comptes rendus de recherches, des mémoires de politiques, des documents de réflexion, de même que quatre périodiques bilingues: **Perception**, magazine canadien sur le développement social; et trois bulletins nationaux trimestriels: **Perspectives**, sur l'actualité sociale nationale; **Initiative**, sur les groupes d'entraide et **Vis-à-vis**, sur la violence familiale.

Le siège social du Conseil canadien de Développement social est situé au 55, avenue Parkdale, Ottawa (Ontario) K1Y 4G1. Tél: (613) 728-1865. Le CCDS a aussi un bureau du Québec à Montréal, situé au 515, avenue Viger est, Bureau 410, Montréal, H2L 2P1. Tél: (514) 288-1687. On trouvera des détails complémentaires sur l'adhésion au dos de la couverture arrière.

Foreword

The idea for this catalogue emerged from discussions between self-helpers and representatives of several national voluntary organizations at an international conference on social welfare held in Montreal in 1984. When the question of information and printed materials on self-help/mutual aid arose, they found that many voluntary organizations already possessed materials that could be of use to self-helpers in general, as well as their own target populations. However, most of this material was not classified according to its relevance for self-help.

It was suggested that a catalogue which listed the self-help materials in national voluntary organizations would promote their use, while at the same time, help to promote the objectives of the organizations. The catalogue would also provide organizations with information about self-help/mutual aid materials other than their own. Since many of these organizations already support the formation of self-help groups for their members -- as an additional component to their menu of services -- it would be advantageous to know the range of materials produced by other NVO's.

Some of these products are original and unique, and can serve as models for others, thereby eliminating the need to start anew when developing self-help/mutual aid materials. The catalogue may also allow an organization to compare its involvement in self-help/mutual aid with that of other organizations, and help them assess whether their role in this area needs to be strengthened or expanded.

We are grateful to all the national voluntary organizations who responded to our request for information. We hope we have not misrepresented the information and express our regrets to any organization that feels we have inadvertently done so.

The collection, compilation and publication of self-help materials from national voluntary organizations is a first in Canada. Through this experience we have already learned valuable lessons that will serve as well in the future if this information is updated or an entirely new work created.

Lastly, we wish to express our sincere thanks to Svetlana Lenko and Judith Burns for their dedicated work in bringing this project to completion. Whenever you attempt something new there are always many unexpected obstacles that cause delay or demand creative solutions. Svetlana and Judith experienced a good number of such obstacles and in each case, worked through them with exta care and attention.

Note to the Reader

It is sometimes difficult to distinguish between materials designed for self-care, self-help/mutual aid and other aspects of an NVO's mission. Moreover, the quantity of materials is simply too vast to permit an exhaustive listing.

We have therefore selected different types of materials that we hope will be of interest to the self-help community. In some cases, where an organization had numerous brochures or pamphlets on various aspects of the same condition, the individual titles have been replaced with generic terms. The sample is sufficiently broad, however, to indicate whether requests from self-helpers for further listings would be useful.

If you are in doubt about what is available from a specific organization, write to them directly. The names, addresses and telephone numbers of the organizations are listed alphabetically in Appendix I at the back of the catalogue.

The information on resource materials is presented in the following way:

- the title of the self-help/mutual aid material or document;
- its language of publication; for example, E or F indicates a separate English or French publication, and B indicates a bilingual document;
- the type of document or self-help material; for example, a booklet, flyer, brochure, magazine, video, etc.;

and - the name of the national voluntary organization, in English and French, from which the self-help material can be obtained.

- Some listings may also indicate the year of publication, the price of the material, the number of pages and/or its ISBN number.
